Notes:

This family keeps specific values in a reasonable range to avoid errors and warnings. Some of the constraints include the following:

*   Handle width can't be greater than drawer width.

*   Legs side offset can't be greater than ½ of the width.

*   Legs front & back offset can't be greater than ½ ofthe depth.

*   Material thicknesses can't be zero (0).

Please contact our customer support if you experience any problems with this family or if you need any further assistance.
