Notes:

This family keeps specific values in a reasonable range to avoid errors and warnings. Some of the constraints include the following:

- Width can't be smaller than side frame thickness
- Height can't be smaller than top and bottom frame thickness
- Depth can't be smaller than the thickness of the back face
- Material thicknesses can't be zero (0).

Please contact our customer support if you experience any problems with this family or if you need any further assistance.
